of **Book Scanning** is here!

SMA is proud to introduce the most comprehensive line of high end book scanners on the market. The entire SMA SCAN MASTER family is now the first product line in the world that can be upgraded to become a fully robotic page turning book scanner... Introducing the SMA ROBOSCAN.

The SMA SCAN MASTER is the most versatile book scanner available worldwide. The SCAN MASTER and ROBOSCAN are most commonly used for books, yet the scanners can easily convert to a flatbed scanner for newspapers, photographs, maps, architectural drawings and other documents.

- **Increased Performance**

The SMA SCAN MASTER can be upgraded to a fully robotic page turning book scanner ROBOSCAN at anytime. Not only will your productivity dramatically increase with the ROBOSCAN, but the operator is able to handle multiple scanning stations or handle other tasks such as entering metadata or indexing.

- **V3D Scanning**

All SMA SCAN MASTER and ROBOSCAN are equipped with a VISUAL 3D camera head. V3D technology significantly increases the depth of field and offers perfect digital reproductions.

- **Total Convenience**

The SMA SCAN MASTER includes a motorized pull-out book cradle to handle large and heavy originals. The book cradle is equipped with pressure sensors allowing the operator to eliminate all pressure between the original and the glass. Operation can be easily engaged via the foot pedal, touch panel, mouse, or keyboard.

- **The Need for Speed**

The SMA SCAN MASTER and ROBOSCAN were designed for applications where superior resolution quality and speed is critical. The utilized Gigabit Ethernet interface guarantees the highest possible image transfer rates resulting in increased productivity.

German Quality Innovation

Like all SMA scanners, the SCANMASTER operates independent of ambient light, bright sunlight or intense fluorescent ceiling light does not interfere in the scanning process. High quality images based on state of the art technology produces optical resolutions of up to 600 x 1200 dpi in bi-tonal, grey scale, and color. The SCAN MASTER utilizes LED lighting, completely free of any ultraviolet or infrared radiation, this guarantees harmless and uniform illumination to the original.
